

8x8, Inc.

## Communications you can rely on

8x8, an award-winning industry leader in the business market for cloud communications, is helping businesses gain a competitive advantage with new communications solutions. Through 8x8's VoIP phone services, virtual contact centers, and unified communications solutions, organizations are lowering their communications costs while increasing productivity.

8x8 offers powerful Cisco SPA phones. When combined with 8x8's hosted communications solutions, businesses are realizing numerous benefits, including:

- **Increased Functionality**

Cisco SPA phones offer numerous features that help to increase productivity and efficiency including: Individual headset and speakerphone keys, HD Voice, and on the SPA525G2, Bluetooth compatibility and a color display.

- **Improved Total Cost of Ownership (TCO)**

8x8's Virtual Office Pro is a powerful VoIP communications solution that is a fraction of the cost of a traditional phone system. It includes enterprise-class features such as web conferencing with video, Internet fax, call recording, online access to voicemail, chat, presence management and social media integration.

- **Web-based Management**

All 8x8 communication services offer the convenience of managing your communications from a web browser. When you're traveling, with clients, or out-of-the-office, your 8x8 services will have your voicemail e-mailed to you or accessible in an online portal.
